Making Way for New Bleachers

The 1,900 seat North Royalton City School's stadium home grandstand bleachers were demolished on January 10 and 11 to make room for the new 3,000 seat grandstand. This will address the mandated agreement with the Office of Civil Rights. It is being paid for in large part through the proceeds of the Valley Vista cell tower agreement. Plans also call for a pressbox.

The bid process for the new bleachers will take place end of January/early February with anticipated installation in summer 2011. The work is being completed by Independence Excavating.
